Sign Up Now for the 2021 Virtual AAOA Annual Meeting

While our Education Committee is still working diligently to plan how best to leverage state-of-the-art content with best delivery methods for a virtual meeting, the program promises to be a “not-to-be-missed” event. Below is an overview of what we are working on and the program flow to help you plan.

Don't forget, attendance at the AAOA Annual Meeting is part of your overall dues value—much like your access to advocacy support and subscription to *IFAR*. Make sure you have renewed your AAOA membership to help assure you can leverage your access to all this content at no additional cost. **Not an AAOA**

member? You still have time to submit your application for membership. New member candidates who complete their application by September 6th, 2021 will gain the Annual Meeting Member Benefit at no additional cost (**read: free!**)

Like last year, our Annual Meeting will offer live-stream and on-demand content. Some content will be available for self-paced on-demand viewing prior to the live stream sessions. Live-stream sessions will run from Saturday October 16th to Thursday, October 21st. Some of the live-stream content will be posted for time-limited on-demand access to expand your ability to view everything you want to watch to help your practice.

SCHEDULE – AT – A – GLANCE

As we roll into the week, we are bringing back our Surgeons’ Lounges for a unique panel perspective on hot topics impacting practices today. Moving West with the time zones each day, our panel featuring the BrinsonAnderson team and renowned AAOA leaders will delve into how to use reports and data to better manage your practice and bouncing back from COVID. Building off the popular presentation entitled “You Cannot Manage What You Do Not Measure,” we encourage you to carve out lunch one day between Monday and Thursday to participate in this unique version of the surgeons’ lounge.

To expand your access options, we are using the weeknight evening for our Clinical Pearls segments. We recognize clinic time is precious, so we intentionally built the program around typical clinic hours. This year’s Clinical Pearls topics span from new approaches to practice marketing, augmenting service lines with SLIT, latest and greatest you need to know on headaches and new meds available, office-based procedures, entrepreneurship, pearls for helping patients manage smoking cessation, and more. Many of the Clinical Pearls topics will also be featured with pre-work on-demand lectures to give you a deeper understanding and allow the panelists to address your questions during the live-stream segments

Our Clinical Pearls will be augmented with case-based discussions on dysphagia; hives; AERD and migraines; practicalities on the administrative side of adding biologics; our popular “Wait, Wait “DO” Tell Me! Journal club; proper dosing in SCIT and SLIT; and Dr. Reisacher is back to host the AAOA \$100,000 Pyramid – Immunotherapy Edition.

Don’t forget to stay for the AAOA Annual Business Meeting. We will once again use the Town Hall format to give you, our members, a chance to share your insights into what could be useful and ways AAOA has and can continue to support our members.
