

**VALITEQ™**

1725 Industrial Ave., Box 245

Cumberland, WI 54829

[allerteq@gmail.com](mailto:allerteq@gmail.com) 1-800-433-7698

Due to the sensitive nature of the plates and preparations you will be shipping to Valiteq for incubation and reporting, special handling and shipping instructions must be followed exactly as directed. Failure to do so may invalidate the test procedures. Valiteq will NOT replace materials that have been mishandled.

Kits sold with development and reporting are customized to each specific individual tested to ensure accuracy. **Kits cannot be shipped to a PO Box.**

AL1DI is for initial testing and will include three sets of (2) contact plates for the triplicate glove fingertip garbing test and one set of (2) contact plates for the post media fill glove fingertip testing as well as the media fill test. Please note that the entire hygiene and garbing process is to be repeated three times and observed for compliance with policies. AL1DQ is for annual requalification testing, and will include two sets of (2) contact plates, one set for the glove fingertip testing and one set for the post media fill glove fingertip testing as well as the media fill test kit. **All materials are shipped 2<sup>nd</sup> Day. Shipping is additional.**

Employee ID/Name	Date To Be Tested	Time of Testing	AL1DI Initial Testing List Price \$220.00	AL1DQ Annual Requalification List Price \$203.00	AL1DIR Retest Initial List Price: \$220.00	AL1DQR Retest Requal. List Price: \$203.00

## RETESTING AFTER A FAILURE

There are two parts to testing for compounding proficiency. The Hygiene and Garbing is both observed and tested by sampling the sterile gloves after they are donned. The second part is the media fill simulation of your typical processes. If you fail both parts you will need to order the above retests. If you fail only one, you can order the individual parts below.

[illegible]
